For your notice to be effective, it must be in writing and include the following information: (1) A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed; (2) Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site; (3) Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit IMT to locate the material; (4) Information reasonably sufficient to permit IMT to contact the complaining party, such as address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted; (5) A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and (6) A statement that the information in the notification is accurate and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

IMT will replace or re-enable access to the allegedly infringing material within ten (10) business days following receipt of the counter-notice, unless its designated agent first receives notice from the original complainant that such person has filed an action seeking a court order to restrain the subscriber from engaging in infringing activity relating to the material on IMT's system or network.
